2011 IIHF World Championship - Slovakia

Another hockey bus graces Bratislava

The number 96 has the longest route in Bratislava.

City public transport in the Slovak capital has once again become more attractive in the run up to the fast approaching championship. The Slovak Ice Hockey Federation and its marketing agency have prepared another hockey themed bus for Bratislava dwellers and visitors to the capital alike.

Following the introduction of the first championship adorned Bratislava and Košice busses and trams by the 2011 IIHF World Championship Organizing Committee last November, SIHF Marketing has come up with a bus featuring the Slovak hockey team with the slogan: **Going for it at full speed!**

The new hockey themed number 96 Mercedes bus runs the longest route in Bratislava: From the airport to Petržalka and back.

Bratislava 17th February 2011
