If no goal is scored in the overtime period then the IIHF Game Winning Shots Procedure will apply. The following procedure will be utilized:

- Shots will be taken at both ends of the ice surface
- The procedure will begin with three different shooters from each team taking alternate shots. The players do not need to be named beforehand. Eligible to participate in the Game Winning Shots will be the four goalkeepers and all players from both teams listed on the official game sheet
- Any player whose penalty had not been completed when the overtime period ended is not eligible to be one of the players selected to take the shots and must remain in the penalty box or in the dressing room. Also players serving penalties imposed during the game winning shots must remain in the penalty box or in the dressing room until the end of the procedure
- The Referee will call the two captains to the Referee Crease and flip a coin to determine which team takes the first shot. The winner of the coin toss will have the choice whether his team will shoot first or second
- The goalkeepers shall defend the same goal as in the overtime period
- The goalkeepers from each team may be changed after each shot.
- The shots will be taken in accordance with rule 509 of the IIHF Official Rule Book
- The players of both teams will take the shots alternately until a decisive goal is scored, the remaining shots will not be taken
- If the result is still tied after 3 shots by each team the procedure shall continue with a tie-break shoot-out by one player of each team, with the same or new players with the other team starting to take the tie-break shots. The same player can also be used for each shot by a team in the tie-break shoot-out. The game shall be finished as soon as a duel of two players brings the decisive result
- The Official Scorekeeper will record all shots taken, indicating the players, goalkeepers and goals scored.
